Volume 9, Number 1

January-March, 1975

Engl./Russ.

Streams and Associations of Fragmenting Meteoric Bodies - B. L. Kashcheev and N. V. Novoselova	1	3
Optical Properties of Saturn's Cloud Layer in the Visible Spectral Range - O. I. Bugaenko, Zh. M. Dlugach, A. V. Morozhenko, and É. G. Yanovitskii	9	13
The Structure of Jupiter's Atmosphere - M. A. Klyakotko	17	22
Methods of Compiling Albedo and Color Maps of the Moon - N. N. Evsyukov	23	29
Distribution of Nodes and Poles of the Orbits of Long-Period Comets - V. P. Tomanov and V. V. Radzievskii	28	35
Transformation of the Incident Flux of Sporadic Meteors in the Gravitational Field of a Moving Body - V. V. Andreev and O. I. Bel'kovich	33	40
Proper Motions of Sunspots during One Day - K. G. Chistyakova and V. F. Chistyakov	39	46
BRIEF COMMUNICATIONS		
Observations of the Comet Kohoutek in Ashkhabad - Kh. D. Gul'medov and Kh. Meleev	46	55
The Trajectory of Debabov's Bolide - V. I. Tsvetkov	48	56
1974 Quadrantids - T. V. Vybornaya	51	59
Southern Arietids, Cetids, and Orionids in 1973 - G. N. Sizonov	52	60
Variation in Luminosity of a Star Observed through the Atmosphere of a Planet - L. Kh. Ingel'	55	62

Volume 9, Number 2

April-June, 1975

[On the Accretion of the Earth and Moon. Mass Distribution of Planetisimals Forming Pre-Mare Craters - R. B. Baldwin	65]	
Calculation of the Depths of Absorption Lines and Bands on the Disk of a Planet Surrounded by a Semi-Infinite Homogeneous Atmosphere - V. G. Telfel'	57	74
Some Kinematic Characteristics of Fragmenting Meteoric Bodies - B. L. Kashcheev and N. V. Novoselova	64	83
Theory of the Formation of Meteor Streams. III - N. V. Kulikova	68	88
Mass and Density of Meteoroids Responsible for 1-4 ^m Radio Meteors - R. Sh. Bibarsov and R. P. Chebotarev	73	94
Condition for the Formation of a Shock Wave in the Atmosphere by a Meteoric Body - Yu. A. Medvedev and V. D. Khokhlov	80	102
Morphology of Coronal Condensations - V. F. Vasil'ev	85	107
Disappearance of a Hydrogen Filament on December 27, 1971 - V. D. D'yakonova	91	114
Graphic Determination of Topocentric Coordinates to Map the Earth's Shadow at the Altitude of the Mesospheric Clouds - V. N. Zakharov	96	120

BRIEF COMMUNICATIONS

Circumstances of Encounters of Meteor Streams with the Terrestrial Planets		
- E. G. Simakina	102	128
Possibility of Using a Gravitational Lens As a Transmitting Antenna - L. Kh. Ingel' ...	105	131
The Total Lunar Eclipse of November 29, 1974, in Tadzhikistan - A. M. Bakharev,		
N. Lutfiddinov, D. Mukhiddinov, and F. A. Tupieva	108	133

Volume 9, Number 3 July-September, 1975

Optical Parameters of Atmosphere and Surface of Mars. III. Surface		
- A. V. Morozhenko	111	137
The Possibility of Observing the Fresnel Reflection of the Sun off the Atmosphere		
of Venus - A. I. Lazarev	116	143
Theoretical Brightness Curves of a Planet and Their Comparison with Brightness		
Curves of Venus - A. K. Kolesov	119	147
Thermal Convection and Phase Separation of Substances in Planetary Interiors		
- M. S. Krass and V. E. Fadeev	124	152
Influence of the Galactic Nucleus on the Distribution of the Perihelia of Comet Orbits		
- V. P. Tomanov	133	162
Origin and Evolution of the Perseid Meteor Stream - L. A. Katasev and N. V. Kulikova .	136	165
The Energy of the Tunguska Meteorite Explosion and Consideration of the		
Atmosphere's Inhomogeneity - A. P. Boyarkina and V. A. Bronshten	142	172
Dynamics of the Influx of the Spherical Fraction of Meteor Dust at the Surface of the		
Earth - N. V. Vasil'ev, A. P. Boyarkina, M. K. Nazarenko, V. V. Apanasenko,		
and V. N. Efremov	147	178
Formation of Geoactive Zones during Interaction of Solar Corpuscular Streams with the		
Quiet Solar Wind - M. S. Bobrov	152	184

BRIEF COMMUNICATIONS

Observations of Transient Phenomena on the Moon (from Materials of Native Observers).		
Second List - P. V. Florenskii and V. M. Chernov	160	194

Volume 9, Number 4 October-December, 1975

Dying Down of the 1971 Global Dust Storm on Mars - V. V. Prokof'eva		
and V. A. Fenchak	165	201
Sporadic Background Radio Radiation, Solar Activity, and the Polar Aurora		
- L. N. Bondar', K. M. Strezhneva, and V. S. Troitskii	172	210
Studies from Space of the Fresnel Reflection Off Planetary Atmospheres and Comets		
- A. I. Lazarev and A. A. Leonov	179	218
Distribution of Geocentric Radiants and Velocities of Meteors		
- V. V. Andreev and O. I. Bel'kovich	184	224
Nonisothermicity of Meteor Trails - I. A. Delov	191	232
Irgizites: Tektites from the Zhamanshin Meteorite Crater (The North Aral Region)		
- P. V. Florenskii	195	237

BRIEF COMMUNICATIONS

A Hypsometric Analysis of the Relief of Mars Based on Mariner 9 Data - V. B. Neiman .	201	245
---	-----	-----
